

ESRI installation instructions for Victoria University of Wellington Students

Setting up your ArcGIS online account (for students)

1. Navigate to the Victoria University of Wellington ArcGIS online website
<https://vuw.maps.arcgis.com/>

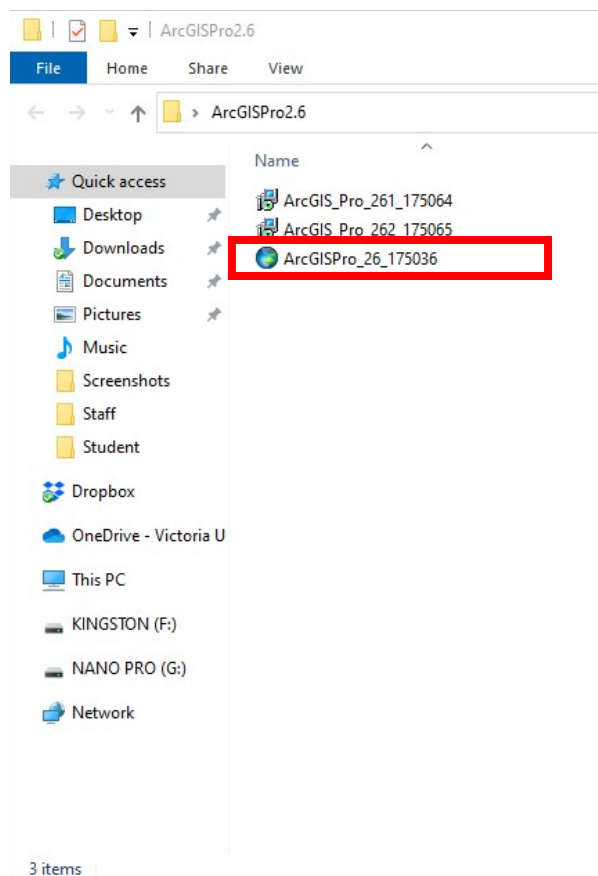

2. Click on ***Victoria University of Wellington-SSO***
3. On a university computer, you will sign in automatically. If you are on a personal computer not on the VUW network, you will need to enter your Victoria University of Wellington log in details.
4. Once you complete step 2 and 3, your ArcGIS online is automatically set up. The first time you log in, you will see basic settings for ArcGIS online. You can edit these details, but they are optional. Profile visibility allows you to set who can see your profile (Private, Organisation or Everyone (public)). It is set to Organisation by default.
5. You're ready to use ArcGIS online and ArcGIS Pro!

Installing the current TEACHING version (2.6.2) of ArcGIS Pro (for students)

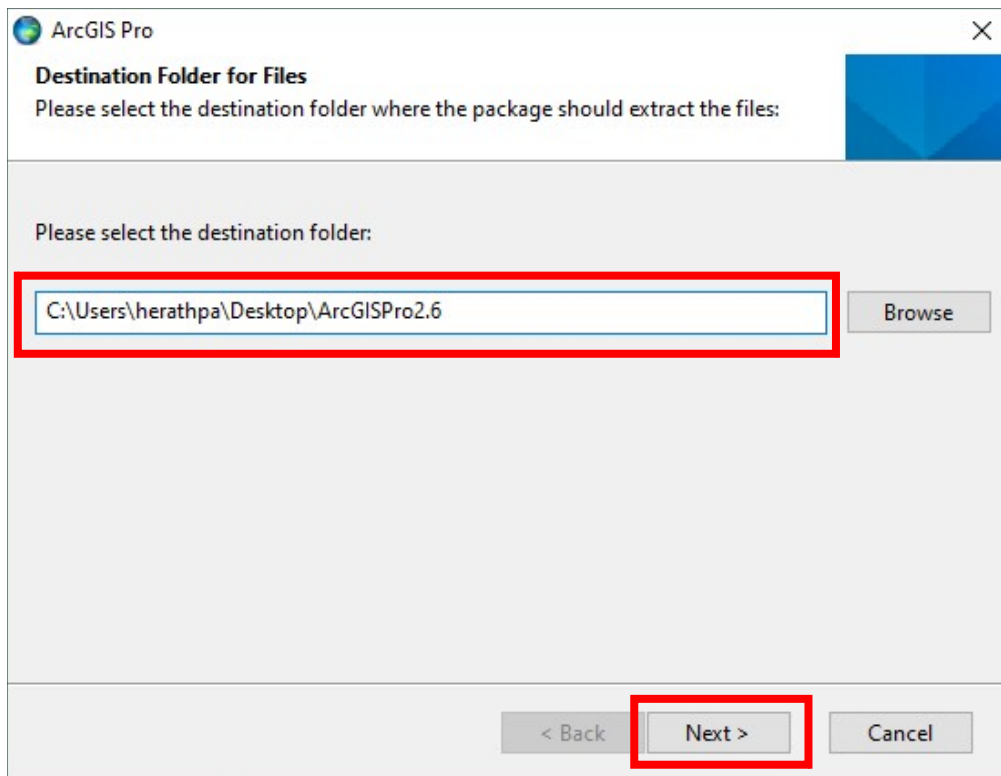

ArcGIS Pro software in university computers (KK 216, 217 and 218 cybercommon labs and library) is updated in December each year for the student image and remains the same for the following year.

The installation files for the current version are available in the W drive. (**W:\GIS\Geog215\Software**)

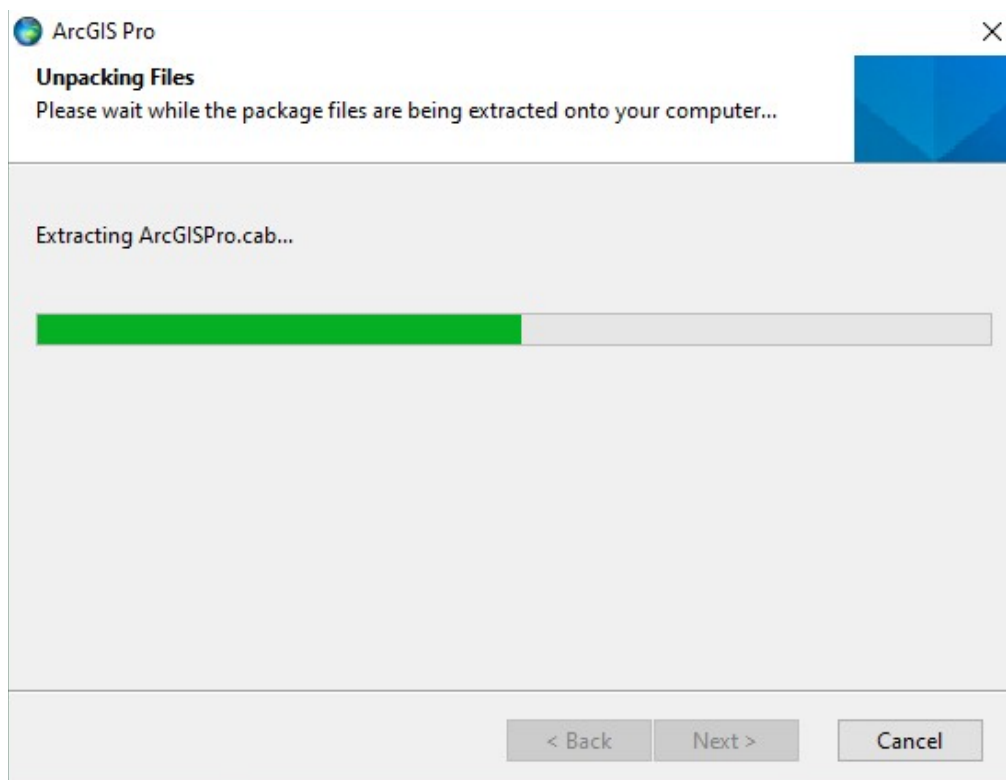

1. Copy the following files from this folder to the hard disk (e.g. Desktop) on your computer:
 - a. Installer (ArcGISPro_26_175036)
 - b. Patch 1 (ArcGIS_Pro_261_175064)
 - c. Patch 2 (ArcGIS_Pro_262_175065)
2. First open the installer **ArcGISPro_26_175036** by double clicking on it.

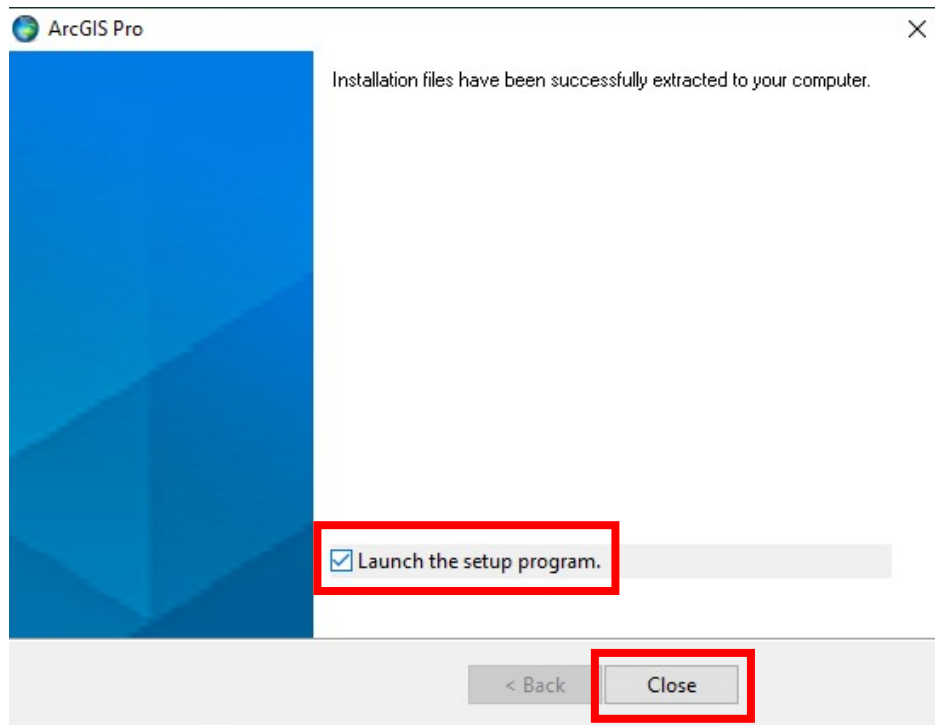

3. In the dialog box that appears, choose a destination folder to unpack the installation files by clicking on **Browse**. After choosing the destination folder, click **Next**.

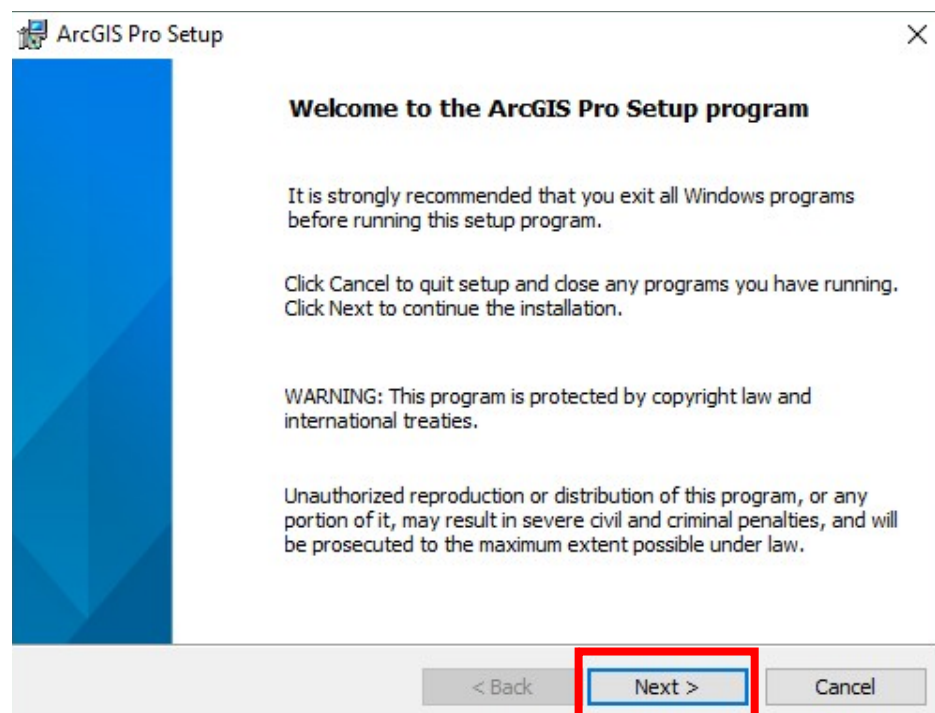

4. The setup program will now copy the necessary installation files.

5. Once, the files have been copied, you will see the following dialog box. Make sure the **Launch the setup program is checked** and click **Close**.

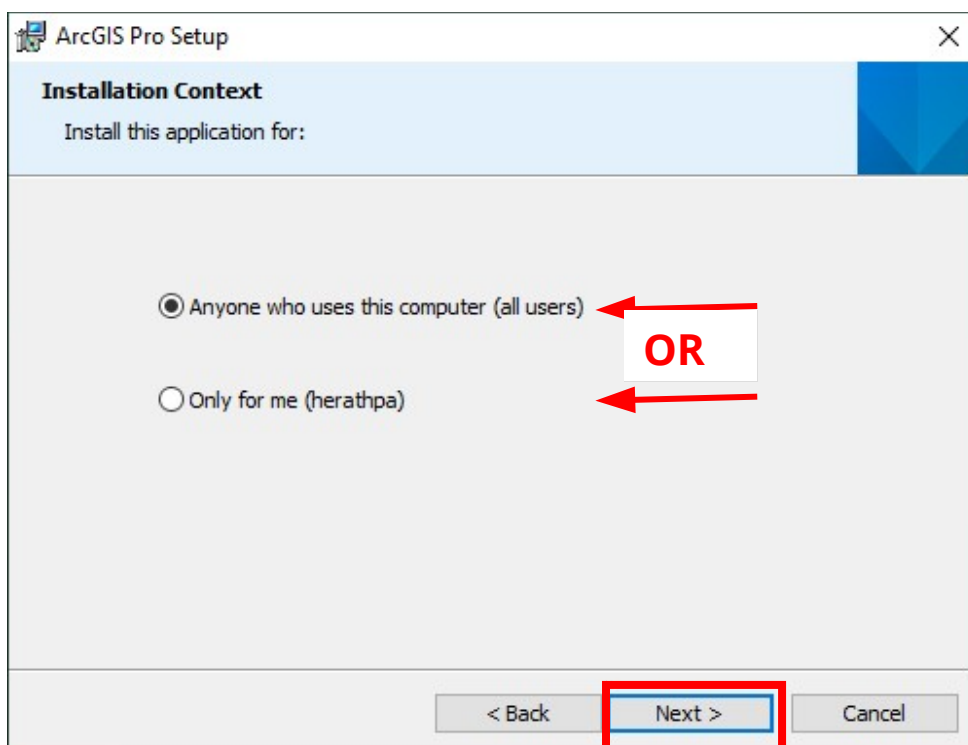

6. Now you the setup will start, and you will see the following screen. Click **Next**.

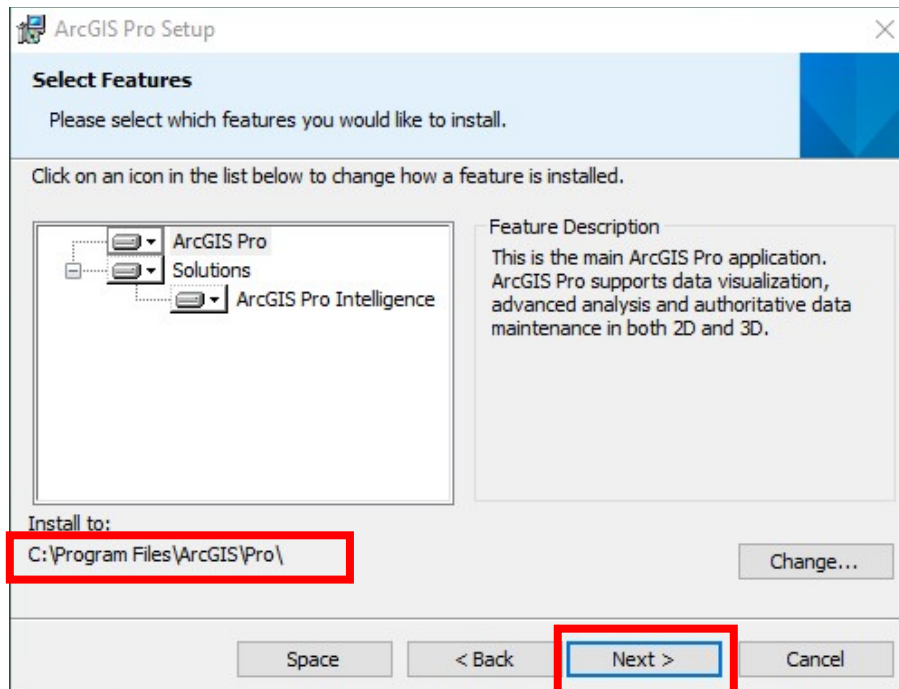

7. Select ***I accept the master agreement*** and click ***Next***.

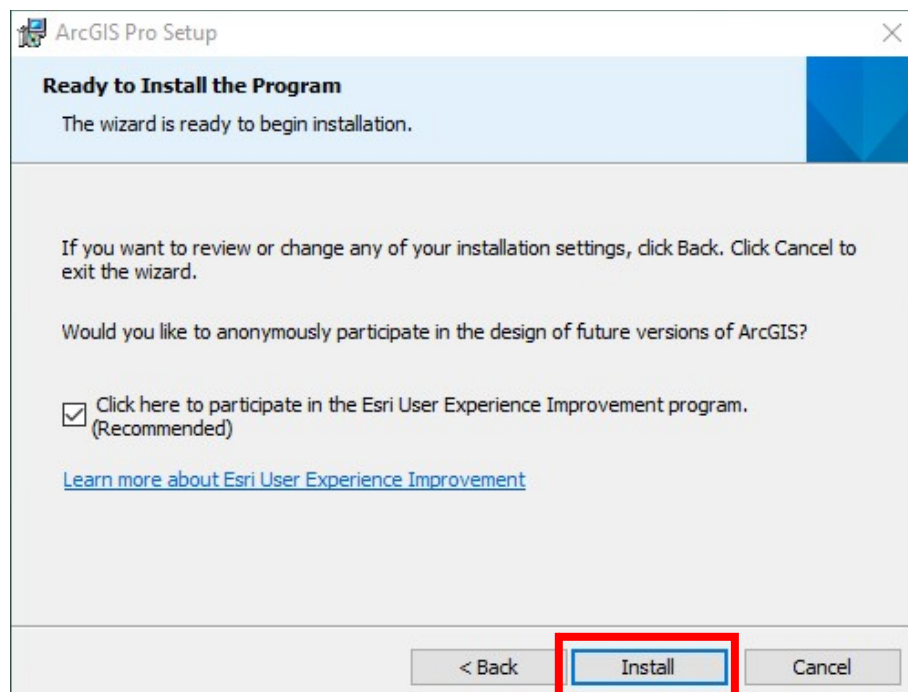

8. Choose ***Only for me (user name)*** if you want ArcGIS Pro to be installed only for you. Otherwise choose ***Anyone who uses this computer (all users)***. Click ***Next***.

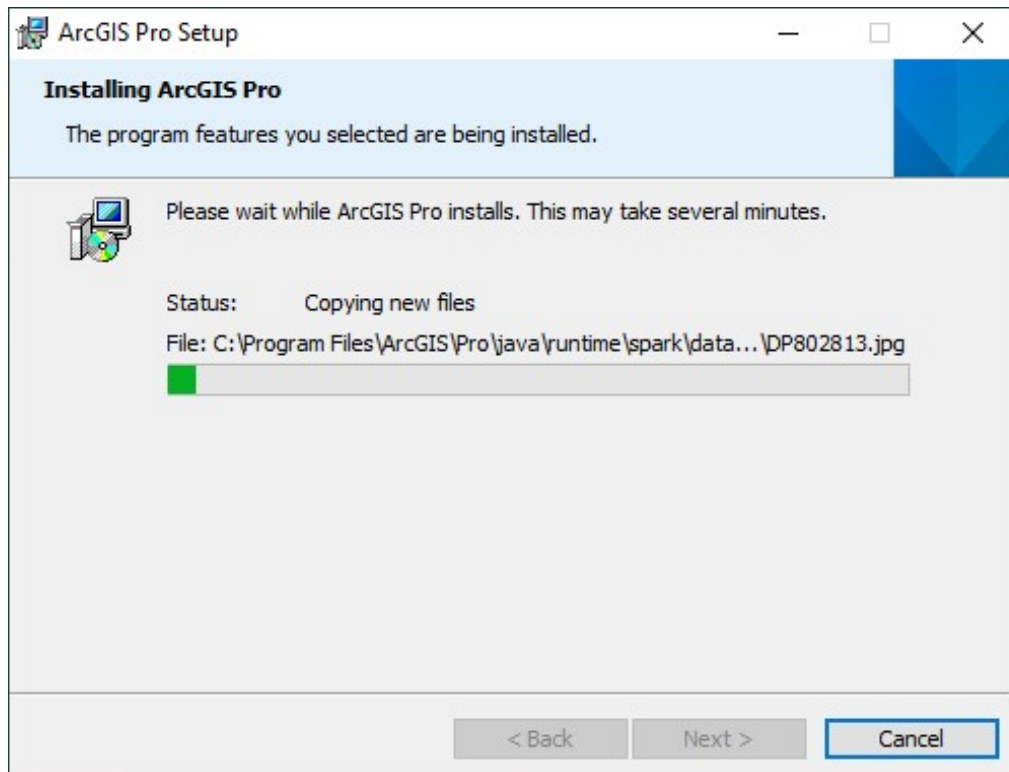

9. You can change the installation path here if you would like to. Otherwise you can leave it to be installed in the default installation directory shown. Click **Next**.

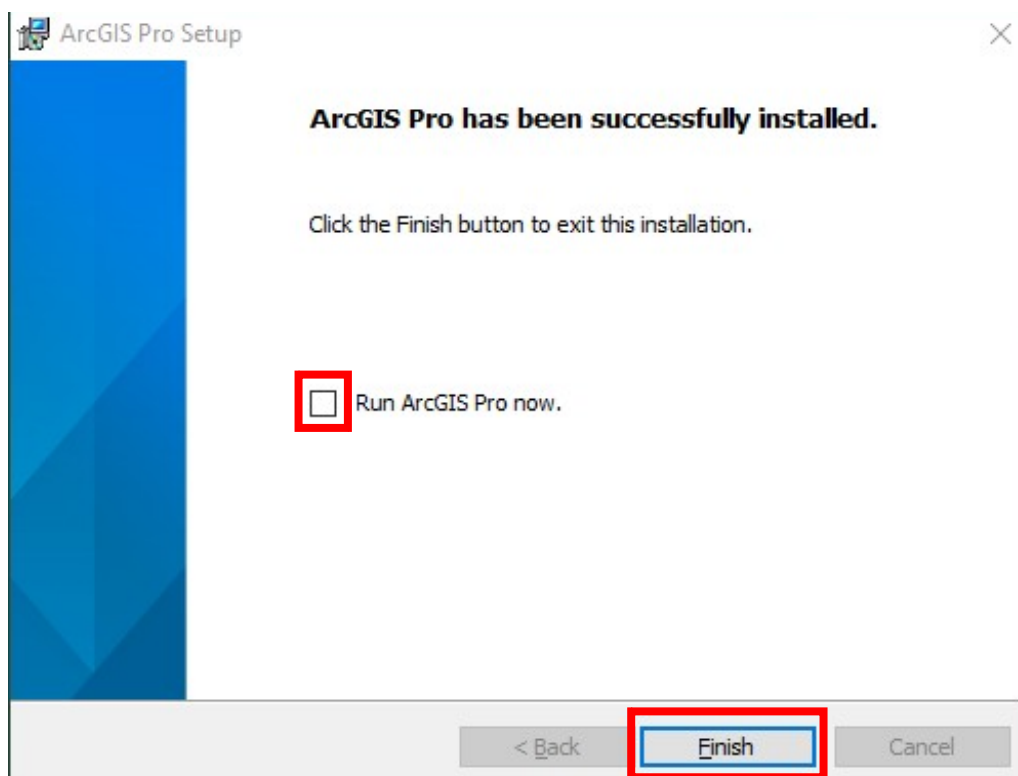

10. You can participate in the Esri User Experience Improvement program. But it is optional. Click **Install**. Provide your administrator user name and password if asked.

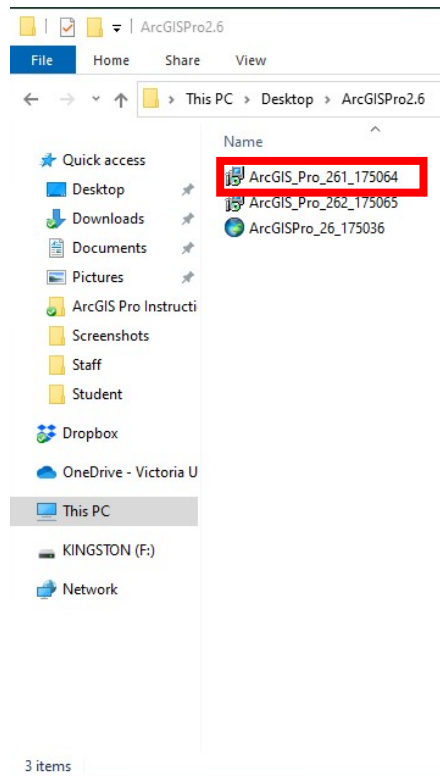

11. Now, ArcGIS Pro will start installing. It will take a few minutes for the installation to complete.

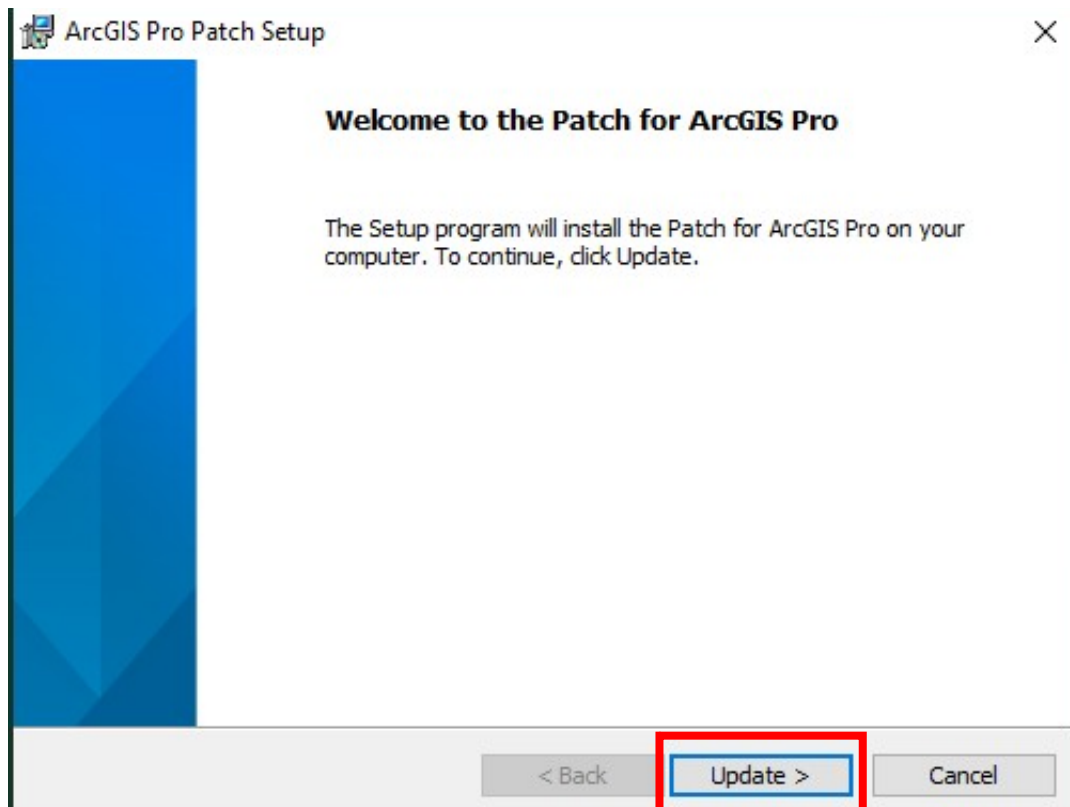

12. Click **Finish**. Before you start using ArcGIS Pro, you need to install two patches. Make sure **Run ArcGIS Pro now is unchecked** and click **Finish**.

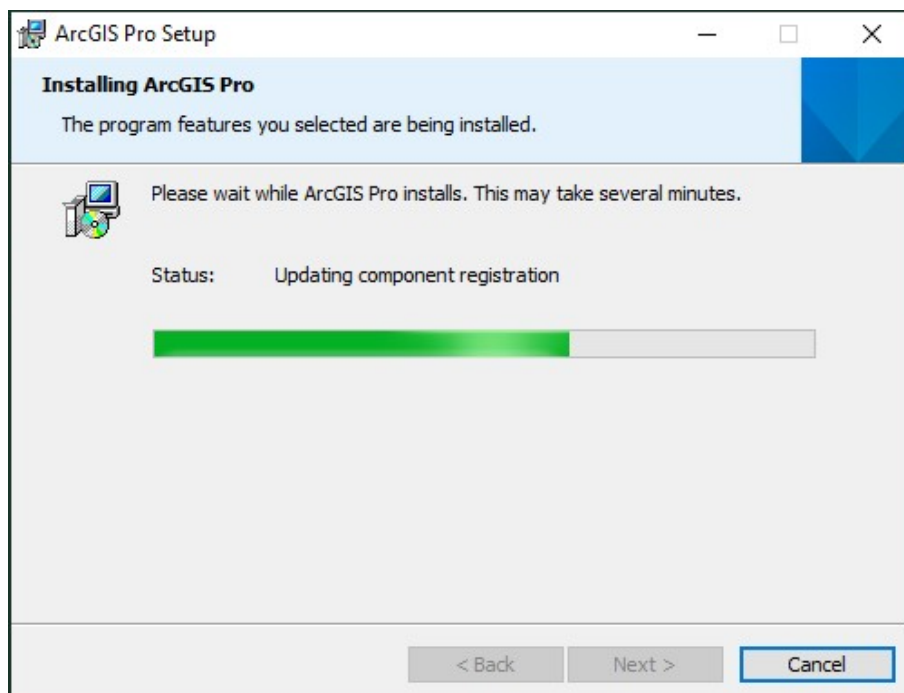

13. Open the first patch file from the setup files you copied to your computer, **ArcGIS_Pro_261_175064** by double clicking it.

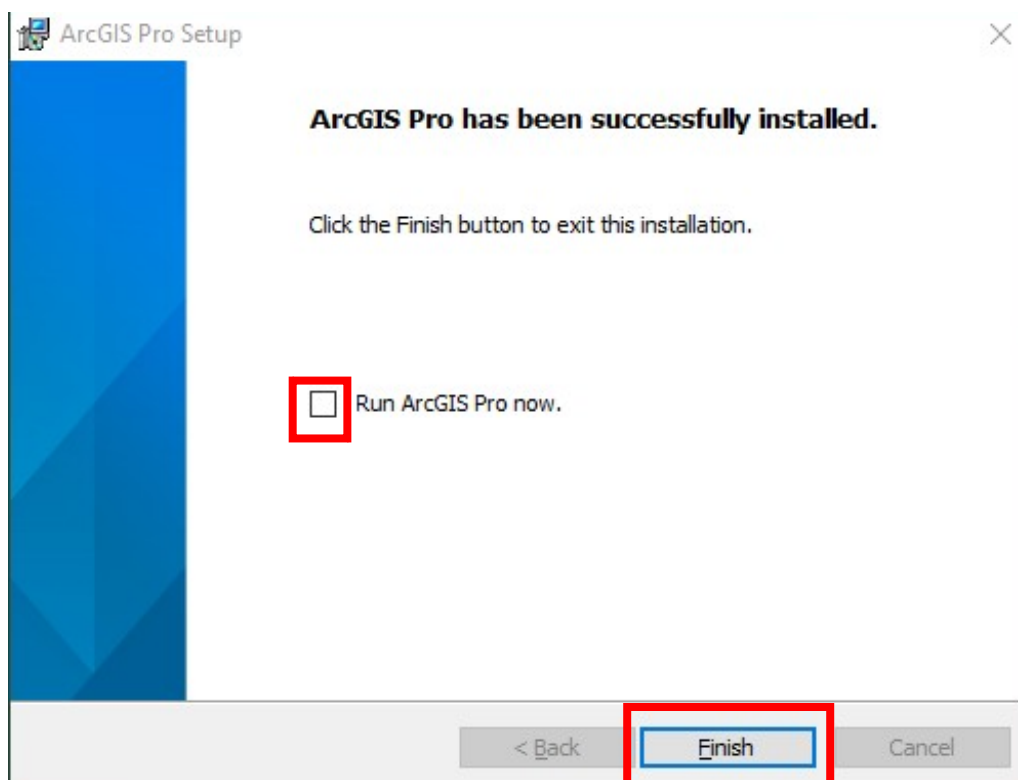

14. Click **Update**. Provide your username and password if prompted.

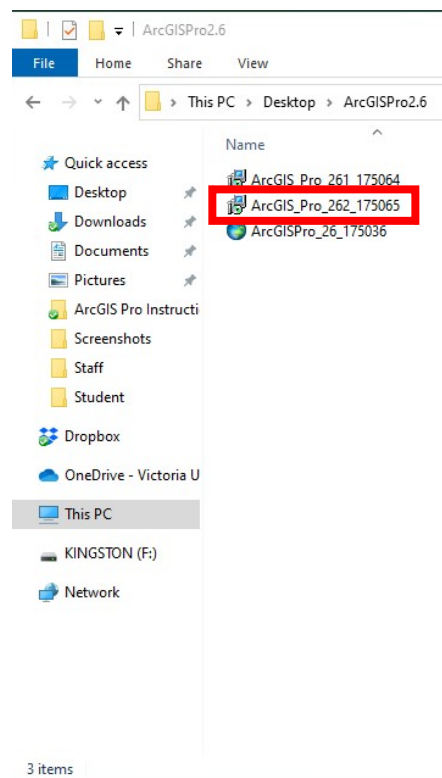

15. Installation of the patch will begin. It will take a few minutes to complete.

16. Once it is complete, you need to install the second patch. Make sure ***Run ArcGIS Pro now is unchecked*** and click ***Finish***.

17. Open the second patch **ArcGIS_Pro_262_175065** by double clicking on it.

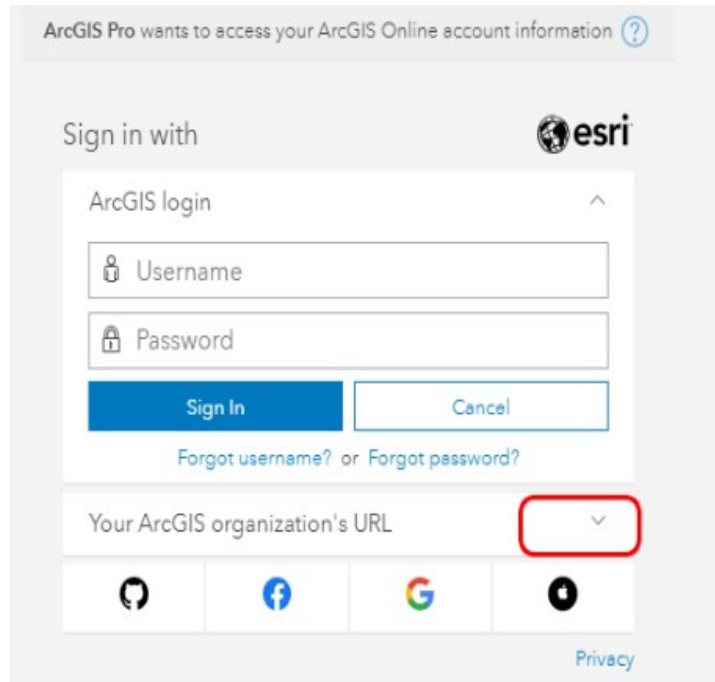

18. Follow the same steps as for the first patch (steps 15, 16 and 17).

19. Now you can start using ArcGIS Pro version 2.6.2.

20. When you open ArcGIS Pro, you may be given the option to update it to the latest version. **DO NOT DO THIS EVER!!!**

ArcGIS Pro sign in (for students)

1. When you start ArcGIS Pro for the first time, you will be asked to sign into ArcGIS online with the following dialog box. Click on the arrow beside the field **Your ArcGIS organization's URL**

ArcGIS Pro wants to access your ArcGIS Online account information ?

Sign in with 

ArcGIS login ^

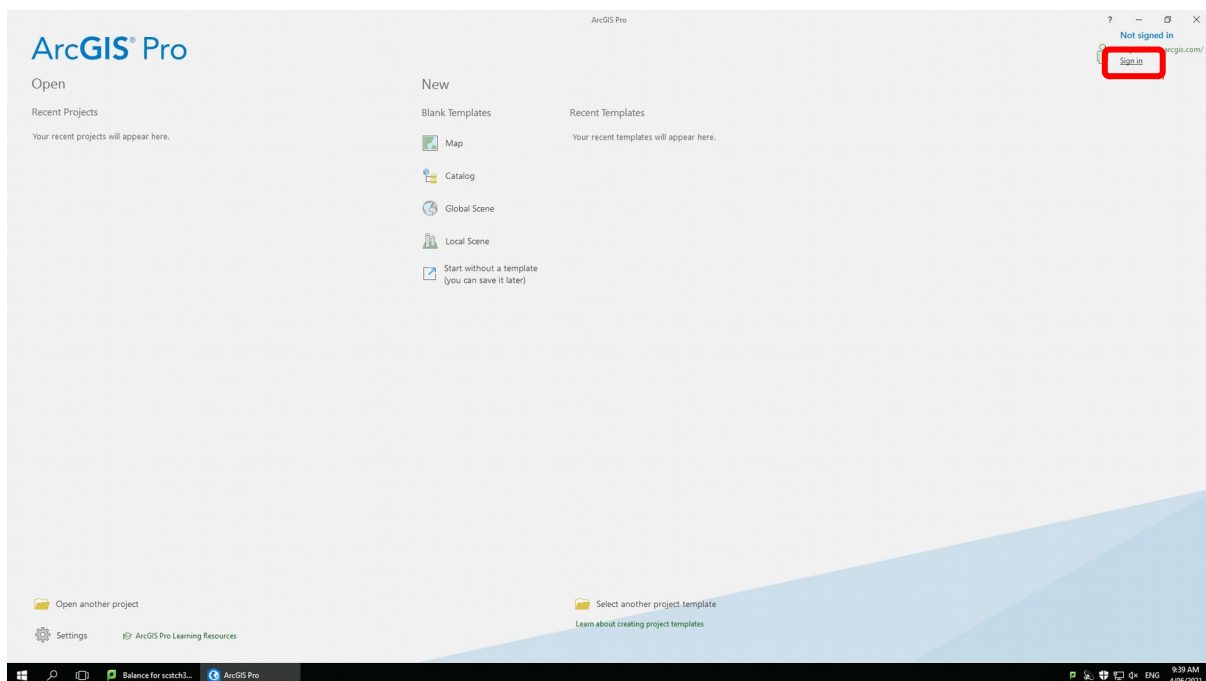

[Forgot username?](#) or [Forgot password?](#)

Your ArcGIS organization's URL 

   

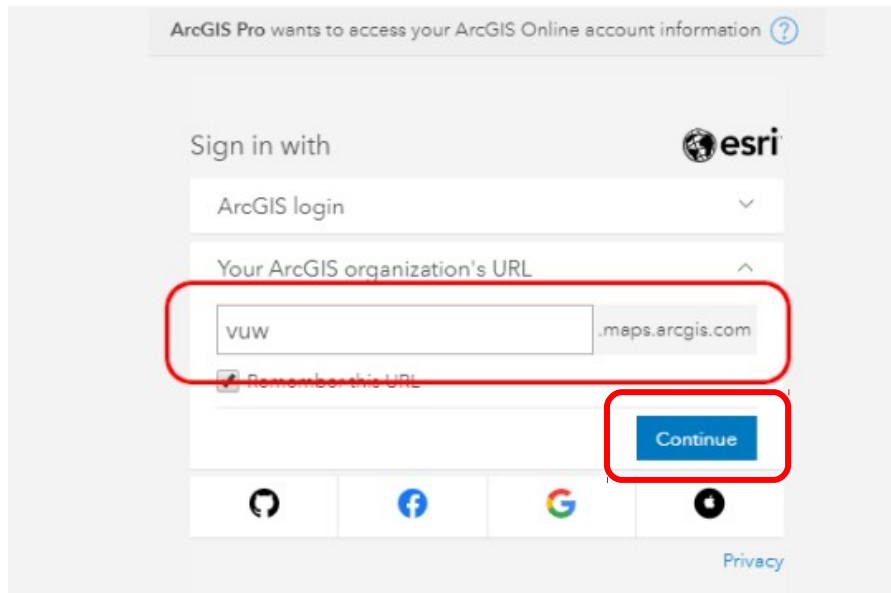

[Privacy](#)

If you do not see the dialog box above, you will see the following window. Click **Sign in** at the top right corner of this window and the sign in dialog box (above) will appear.

2. Type **vuw** in the text box that opens and click **Continue**.
